25X1 MEMORANDUM FOR: [redacted]

SUBJECT : Training Manual on Imagery Analysis

1. I need to review with you the purposes of this manual -- who are we doing it for, and to what kinds of uses is it likely to be put?

2. The answers to those questions should influence some questions in my mind, resulting from my reading of your outline -- for example:

a. I question if we should be doing one manual, or separate ones for NPIC and IAS.

b. I question if the manual is an appropriate vehicle for examining the ostensible problem of the balance between collection and exploitation.

c. I question at what security classification we should attempt to treat the subject.
